

**Midland Region**  
Warwickshire Area

# **WOMEN'S ENGINEERING SOCIETY AT 100 ... AND AERO- ACOUSTICS**

## **Jennifer Glover**

**PhD research student & WES  
University Groups Board Chair**

**Institution of  
MECHANICAL  
ENGINEERS**

Following an introduction to WES and some of the WES Centenary role models, Jennifer will describe her journey into engineering and research.

Jet engine noise cancellation is the focus of her ongoing PhD, specifically the use of a metamaterial – a material with an unnaturally modified structure – to enhance engine liners' noise-reducing properties.

Jennifer is also a STEM Ambassador and finds volunteering in schools one of the most rewarding aspects of being an engineer.

**Tuesday 26<sup>th</sup> November 2019**  
6pm refreshments, **6:30pm start**  
**Rugby High School** Longrood Road, Bilton  
**Rugby CV22 7RE**

Free entry; open to all; no need to book
