

Yr 12 History Transition Work

In preparation for starting your A Level History course in September we would like you to complete two tasks:

1. American History Research: For each decade between 1910-1980 research key events in US history. Create a fact file outlining what you think was the key event for each decade. Bring this to your first lesson in September.
2. Go to your local library and take out a non-fiction history book, on any topic of your choice. Read through it and jot down your thoughts. Be prepared to discuss this in your first lesson.

We look forward to seeing you in September.
