

## NEW ROLAND KEYBOARD DONATED BY THE OLD GIRLS SOCIETY

We would like to thank the Old Girls Society for generously buying the music department a new Roland Digital Piano. It had its first outing at the recent 'Oh What a Lovely War!' production. The Roland has many advantages for the school in that it can be easily transported to and from the hall and is easily plugged into the sound system. It will also be used by students to record their exam tracks and as a harpsichord to accompany Aurealia Strings, our C18 music group. It has many other functions including the facility to import backing tracks and of course it won't need tuning! It is a huge asset to the Music Department and we are very grateful to the Old Girls Society for this donation.
