

Rugby High School Sixth Form Curriculum

Blocks for 2019

A	B	C	D
Art	Biology	Chemistry	Art
Biology	Business	Classical Civilisation	Chemistry
Computing	English Literature	English Language	Drama
Economics	PRS	Further Maths	French
English Literature	Physics	History	Geography
Latin	Sociology	Physical Education	Mathematics
Mathematics	Spanish	Psychology	Politics
Music			Psychology

We expect that the majority of students will choose to take three A levels. If you plan to do this, you should choose one subject from three of these four blocks. A minority of students may wish to take four subjects to A level. If you wish to take four subjects, you should choose one subject from each block, unless you are planning to take Further Mathematics. If you plan to take Further Mathematics, we will automatically assume that you are taking Mathematics. You just need to choose two more subjects from blocks A, B or D.

N.B students who wish to take four A levels (this includes students who wish to take Further Mathematics) must achieve at least 5 grade 8s at GCSE.

If the subject combination you want is not available please let us know at your guidance meeting and we will try our best to accommodate your choices.

A	B	C	D

Please bring this form with you to your guidance meeting.
