If a young person tells you something that suggests that they have been harmed or are at risk of harm, you must not promise to keep what they have said confidential, you need to report it immediately to a designated person.

If you are a member of staff or a volunteer, please report your concern straight away on 'myconcern' or complete a green form available in the staff room or Reception and give it to a Designated Safeguarding officer so that we can follow up your concern. If you are a student concerned about another student please speak to a Designated Safeguarding Officer to share your concern.

We ALL have a duty to keep young people safe
